“ *Grandpa was so much more than a grandpa, He was my daddy. That is what I called him. He taught me how to fish. He tried to teach me how to whistle like the birds but soon discovered that I was unable to make those sounds. I loved hearing him go out in the woods and talk to the birds with his whistling. We would go do touch and go's in our little airplane. He would take me on flooring jobs and I would sit and watch him create beautiful floors in people homes. My favorite thing was watching him from the front seat of the pew watching him preach. I have so many memories that I will cherish always. I shall miss you but I know that you are in heaven. Love you Laura Joyce and Family.*

“ Call Leroy it was one of my favorites, always happy and joyful. He was in the military and the pastor and a missionary to Haiti. You love the Lord and he loved his family. We love all the family members and we bless them. We're not recovered enough to be able to make it to the funeral but we are praying for everyone God bless you

“ Family, Please accept our condolences. Uncle Leroy was a great Man of God. He sacrificed so much for the service of God. He was always there for us, also. After a bad accident, Uncle Leroy and Aunt Belinda came to check on me several times. They went to Kansas to spend time with my dad when he was sick. We are sorry for the loss of a great man on earth, but we rejoice for heaven's gain. We pray for peace and comfort for the family. We love you.
