“ Mom, Tam and I were so lucky to be able to help and take care of you through the stages of your illness. It was a real privilege to give back just a tiny portion of what you had given us our whole lives. You were the very best Mom we ever could have hoped for. You sacrificed so much to make sure that we had what we wanted and needed. We are eternally grateful for you and all you did for us. Our hearts are broken knowing that we can no longer text, call or visit you. There is now a void in our lives that can never be filled. However, we are glad to know that you are no longer in pain. We will cherish the memories that we have of you, and the great times we shared. We love you forever and always.

“ I have so many memories of my beautiful sister. She was my best friend, my confidant, my traveling buddy. One of the only ones that has always known the true me and loved me for who I am. She was my person! The one I went to for advice, for laughs, for fun and for those wonderful conversations that only sisters know and understand! My heart is broken! She will be forever loved and forever missed!
