“ *Mother, I want to thank you for being my prayer partner..we spent countless hours sharing our hearts, we were free to speak without fear of condemnation and knew nothing we could say would have us lose respect for each other..Mom would express her love for everyone and dream of the day she would be reunited with her family who had preceded her...today she gets the desire of her heart as we gather to celebrate her life which resulted in a room full of grateful family and friends who's lives were all enriched in having had her in all of ours lives...your daughter always and forever, Alma Galvan Perez*
