What Is A Thoroughbred? It is a horse surrounded by excitement, gambling, glory and pain. It is a man's dream that can lead to disappointment or fame. It is a beautiful animal that can turn a man's money to financial gain. But all the vets, prevention and care can't stop it from pulling up lame. The thoroughbred can involve so much time and so many years. It can cost a man years of heartaches and so many tears. The horse is a vision, an addiction, a hope and part of a game. The public will bet a fortune on it because of its name. Many lives revolve around the animal, all for different reasons. All their work, time and thoughts go throughout all seasons. As he's coming down the home stretch, hearts are beating along with his own. The hoofs are pounding and the muscles are working, but the winner is still unknown. The horses hit the finish line and the emotions are flying. The race is now over with the results of the trying. Only man now feels happiness, sadness, celebration or grief. So, what is a thoroughbred? It is a horse bred to run his heart out, lose or win. It is a horse that has won the hearts of women and men. Lori Jo Giddings
