“ *I am not sure what age your dad was when I helped him in my shop (a couple years ago) I must say he had a run around trying to find just what he wanted, we modified for him what he wanted i gave him a ride home from my shop and talked with him all the way there and all the way back and had seen him on a few occasions from him stopping in. He was a SUPER PERSON!!!! and talked about his daughter his late wife and was glad to be in alamogordo around his daughter. his family meant alot and I am sure you will miss him I hope your pain is eased knowing I knew he was a spiritual person he told me so. he reminded me of my father and know he will be missed. even by the peoples life he touched even if for only a short time.*
