“ I have been blessed to call you my grandpa and cherish you for 30 years of my life. I'll always miss your crazy stories grandpa and your heart of gold in which you were always a giving man, you thought of others before yourself all of your life and for that I admire about you. You were a father to me and taught me a lot about life just by watching you. You came from nothing and made a business and never bragged, you always let your work ethic do the talking. You will always be my number one mechanic. The garage is a place I will always hold close to my heart, that was our home away from home. I will always remember visiting you when I was feeling down about life because your voice and presence was comforting to me. You are the strongest man I have ever met and you are the hardest working man there ever was. Now you're with Richard and Joe Paul now. Rest In Peace grandpa, now you can finally rest. I love you forever.

“ I grew up around my grandpa Joe and learned so much from him. He was the best grandpa a kid could ever get. I remember going to his garage and watching him work on cars and him teaching us how to fix things. Also going to miss sitting around the heater listening to all his stories, its never going to be the same without you. I know he is in a better place and is at peace now but it hurts to know I am never going to be able to pull up on him and see him at the garage or his house and just listen to him talk. I love you and going to miss you grandpa. See you on the other side grandpa
