“ I would like to offer my condolences to John's family. I worked in Roswell from 1989-1992 and had the opportunity to know John. I enjoyed his friendship. One of my fond memories of him was sharing coffee with John and other oil and gas professionals at the Petroleum building in the cafe on the first floor. There was always a numbers game to see who picked up the tab for those who were able to break away from there work. I think he was one of the first to include me in these morning coffee breaks. I will remember his kindness and friendship during that time.

“ I only knew John for a short time, but it was my pleasure. That man had a wicked sense of humor that came out at the oddest times and made you howl. I think he waited for it.  
Rebecca, he may have not known it but he had a guardian angel in you.  
My thoughts and prayers for Sparky, JR, Scott and Rebecca and the whole Sheldon family.
