“ *I have only had the pleasure of knowing Aunt Karen for a short time but it sure feels like a life time. Since the moment we meet she welcomed me and my kids in with open arms. She loved watching the kids. Everytime I turned around she was calling for the kids. She loved picking out coloring books and trinkets for them at her house. If you stopped by she had a coke ready for you. It didn't matter if she just meet you she was ready to help if you needed anything or just an ear to listen. She loved her church family and always looked forward to church as often as she could get there. The person she loved most in this world was her daughter. She was always ready with a story of what she was doing. The fondest memory I will always have is listing to her tell me about the stuff my husband would pull as a kid she seemed to remember everything. I will always love and miss you Aunt Karen rest in peace.*

CA

Karen always had a smile for every No one loved jokes as much as she did. She was always ready to help. I remember in her garden, She would get so excited for spring flowers rain and birds singing. We had many good times in the past. She loved her God. She would always tell me pray and he will hear, trust in homily is a sad time that we have to let go but I know she will be watching and praying and encouraging us to go on. We love you Karen. Your forever in our hearts. we will miss you, MILLIE,
