“ *I just found out about Ken's passing...I used to talk on his 146.610 repeater near Roswell, and many times visited with Ken on the radio as I passed thru in my truck. One time back in the 90's he met me at the little diner that was on the west side of Roswell, what a nice guy he was. Very knowledgeable about ham radio, yet also very friendly and welcoming to us 'newbies'. I also knew his brother, Don. Both were great guys.*

Sad, yet it seems he had a very positive influence on many people over the years.

Belated condolences to the family.

R.I.P. Ken.

“ *Kenny Letcher lived on No, Richardson during WWII. I lived across the street at 110 W. 13th while my dad was stationed at Roswell Army Air Force Base. Kenny and I were the same age, and he was a good friend. I have fond memories of him and his brother Donald, his mother and his father Elmer. Elmer owned the Texaco station on Main Street. I'm pretty sure there was a younger child born to their family while I was there. After the war, my family returned to California. I now live in Davis, which is near Sacramento.*

“ I enjoyed the many years of listening to and speaking with Ken on ham radio. I wanted to meet him in person but never did. He was very knowledgeable in radio communications and I learned a lot from him over the years. He will be missed.

“ I just heard about Ken passing. I met him in 1962 at Southwest Communications. I was in high school and he took the time to teach me basic electronics and got me interested in Ham Radio. He helped me obtain my Ham Radio license (WA5MHQ later changed to WA6CQE) that led to a degree in electrical engineering and later, a member of the Apollo 11 launch team and a 45 year civil service career with the Navy working in electronic warfare. Ken had a major influence on my life. I enjoyed our conversations on the radio. I am grateful for all his help and guidance. Rest in peace, Ken.

“ In 1954 Ken befriended a new kid in town. Though two years my senior, he introduced me to his friends and the loneliness went away. He helped me learn the basics of electronics and by example showed me how to communicate with people I didn't know. He helped me obtain my Ham license and put me on a path that led to a degree as an electronics engineer and since then my career has taken me to 26 countries around the world. Our time together was brief, but in his gentle way he had a major influence on my life. And I am grateful. When I tried to thank him for all this he denied he had done anything special. We probably will never know how many others he helped the same way. Rest in peace, Friend.

“ *The World lost today one of its finest Amateur Radio Pioneers.*

It is with grief and deep sorrow, that we received the news of our dear friend W5YFN - Ken who passed away peacefully on Sunday.

On behalf of the Radio Amateurs of Lebanon (RAL) and the Hams around the world, we extend the deepest and heartfelt condolences and sympathy to his XYL Sue, family, friends and to all those who admired him as they mourn his loss. Ken left us physically, but he will always be in our heart, mind and prayers. He will be greatly missed. May his Soul rest in Peace.
