“ *We have a lot of memories with my uncle but my favorite is how he would always ask my sisters and I "who loves you to many" and we would giggle even to this day we would and say "you uncle luz" and he would laugh and tell us "that's right and don't ever forget it" I'll always hold these memories dear to my heart!!! I love you to many sweet man*

“ *I have so many stories but the one that stands out is when he would tell us the story of how he carried my sister's and I on his back lol he would tell me you know I love you the most right!, I would say yes but my other uncles love me too and he would look at me with the priceless face of his and say they didn't carry you on there back for miles lol he always had me laughing!! I'm gonna miss that!! fly high with the angels!!!*
