“ *I am grateful to have Christine as my friend from the 2nd grade to present day. We spent many years as neighbors and Mike was a large part of our fun times. I admired his relationship with Chris and his mama...his entire family. One of my best memories was the day he introduced us to CCR...still love their music! I'll miss his big smile on our occasions to run into each other from time to time. My deepest condolences to you Christine and your whole family.*

*I've know Mike since our days together at Goddard High School, we both graduated in 1969. He was always so sweet and had a big easy smile. Always seemed glad to see me when we'd run into each other around town. Condolences and love to the family.*
