“ *My grandma was a very, very sweet person she never had anything to say bad to anyone unless she had to, but she was so kind in every way she could be and now that she is gone she will b missed terribly by loved ones I just wish she wouldn't have died so young though, and she'll never get to see my son or my daughter graduate in person but I know she'll b watching from above and she'll get to see them graduate like that. My grams was a strong person till sh couldn't no more but she knew her day was coming for an end cuz every time I would call her she would tell me all the time that her bones always hurted her and that she had very bad arthritis in her hands and feet and legs but I know that me and my mom will miss her everyday I wished she could've seen my son but she will never now but will be watching over him and her great granddaughter and her kids and grand kids. 🥺🥺 I will always love and miss you so much grandma.*
