“ I just found this site and need to say a few things to those who read.

My name is Gregory P Williams, my dad is Paul D Williams, and my dad and Peggy Moerhing was together for a little over 10 years or so..

I have known Peggy for quite some time before my dad had met Peggy, through my sister Holly L Bordeaux (maiden name)- Williams) she had married Daniel Bordeaux Peggy's Nephew.

*So I would just first like to say to Peggy how sorry I am for calling you an ***hole the day b4 you died HALLOWEEN night 😞 that was the first time I ever spoke to you that way and I am internally hurting now, only reason I even spoke to you that way was bc I thought my gf Shawna L Bennett changed recently from devorsing her Ex husban Honorio Lopez Romero removing last name Romero, I wanted to show and prove my gf Shawna I would defend her when she gets and feels hurt by someone, my gf Shawna swore I never have and never will defend her especially against my own family. Well Shawna I defended you when you needed me too, and I really just did it to prove my love is real.*

Now Peggy a good person and heart has left us and were all suffering from it. I shouldnt have tolike to be a jerk to someone to prove you anything or anyone.

Im not that person and now I have to live life in more regret. Im sorry to make this about me but Peggy would of been happy to here this message and we would have had some laughs right after.

...

Now all I want to know is why are her siblings not caring about losing Peggy?

Its sad to watch her own flesh and blood rush to get all of Peggy's hard working Property including my own dad.

*I miss you Peggy and I know your spirit is with GOD now and thats
all that matters now, much more important 😊*
