“ *Becky, wish I had gotten to know better, I only knew you through work and your grandson but you managed to make everyone smile everytime you came in. May heaven welcome you with loving arms and hug you tight for eternity.*

“ *My dear Becky
I will always remember you for standing up for me in 1994 when you hired me to be the family planning clerk in Dexter and Artesia. I know that I would have never been hired if not for you. I retired and completed 20 years with the Department of Health thanks mainly to you! i will always remember the outreach program you started with the Joy Centers of Dexter, Hagerman and Midway. You truly cared for the senior citizens of New Mexico. Through the outreach program you started you reached alot of people who would have otherwise never had services like blood pressure, blood sugar monitoring and flu shots. I will also remember when we would be invited to the Hagerman Joy Center for Thanksgiving and Lorie Salas, the Program Director would seat us at the front table. Lorie always appreciated the services you would bring to the Joy Centers. Both Gloria and myself will be forever in your debt.
Condolences to your family.
